SEPTIC SYSTEM COMPLIANCE INSPECTION REMINDER

On 2/24/2016 a compliance inspection conducted by Midwest Soil Testing on the existing subsurface sewage treatment system (SSTS) located at 2257 Legion Ave N determined that the system was non-compliant. The Washington County Department of Public Health & Environment issued orders that the SSTS be replaced within six (6) months.

The six (6) month compliance deadline has passed, and as of the date of this correspondence, our records show that the new septic system has either not been installed or has not been issued a Certificate of Compliance. Please contact Sarah Borrell at 651-430-6692 or by email at sarah.borrell@co.washington.mn.us and provide an update as to when the SSTS will be replaced and brought into compliance.

The Department recognizes that repairing or replacing an SSTS can seem like a daunting task. Financial assistance is available through Washington County in the form of low-interest loans and grants from low-income residents. Please visit www.washington.mn.us/septic for more information on financial assistance and the processes of repairing or replacing an SSTS.

Sincerely,

A handwritten signature in black ink that reads "Sarah Borrell".
