Extension for Repair, Replacement or Discontinued Use of Septic System

The Department of Public Health and Environment has received your request for an extension from our Notice and Order to Comply, issued February 12, 2019, regarding the existing subsurface sewage treatment system (SSTS) at 8110 59th St N.

The Department has used the following information in making a determination on your request:

1. Jason Fry stated that his family has just purchased the home, and after consulting with contractors will be unable to bring the system into compliance before the 6 month deadline.

Given the above information and the authority granted by Washington County Ordinance #206, the Department of Public Health and Environment agrees with your request to extend the time frame to replace, repair or discontinue use of the onsite SSTS to February 12th, 2020.

If you have any questions or comments, please contact Tyler Dale at 651-430-6741 or Tyler.Dale@co.washington.mn.us.

Sincerely,

A handwritten signature in black ink, appearing to read "Tyler Dale".
