failing to protect groundwater. Ordinance.					
5. Operating Permit and Nitrogen BMP* - Compliance component #5 of 5 Not applicable					
••					
Is the system required to employ a Nitrogen BMP?					
If the answer to both questions is "no", this section does not need to be completed.					
Compliance criteria					
a. Operating Permit number:					
Have the Operating Permit requirements been met?					
b. Is the required nitrogen BMP in place and properly functioning?					
Any "no" answer indicates Noncompliance.					
Upgrade Requirements (Minn. Stat. § 115.55) An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the system is failing to protect ground water, the system must be upgraded, replaced, or its use discontinued within the ime required by local ordinance. If an existing system is not failing as defined in law, and has at least two feet of design soil separation, then the system need not be upgraded, repaired, replaced, or its use discontinued, notwithstanding any local ordinance that is more strict. This provision does not apply to systems in shoreland areas, Wellhead Protection Areas, or those used in connection with food, beverage, and lodging establishments as defined in law.
