r.e. New Submersible Pump Information
MN Unique Well No. 521818

Thank you for the copies of my environmental folder for the house on Northbrook. The submersible was replaced in May of 2018 and I am providing you with the new specifications to update your records.

Pump: A.Y.McDonald
Installed: May 2018
Model: 24075K2

Capacity: 10gpm

Type: Submersible

I am uncertain who installed it. Warren McCulloch was unable to verify that he had and McCulloch and Sons had no invoice or records pertaining to a replacement last May.

Sincerely,

A handwritten signature in cursive script that reads "Dennis D Walston". The signature is written in black ink and is positioned below the word "Sincerely,".
