Septic System Compliance

Dear Judith M Larson,

On November 24, 1980 Washington County issued a septic system installation permit for a system located at 6786 St. Croix Trail South. On September 16, 2019 the Washington County Department of Public Health and Environment (Department) received a compliance inspection report conducted by Shelley L Schlomka finding the septic system to be compliant. On January 29, 2020 the Department received a compliance inspection report conducted by David R Brown finding the septic system to be noncompliant.

As two valid compliance inspection reports with different conclusions were officially submitted to the Department, the homeowner Judith M Larson requested the County offer an opinion regarding the compliance of the system. The periodically saturated soil dispute process laid out in Washington County Ordinance #206 section 8.13 was followed.

The Washington County Department of Public Health and Environment used the following information in making a periodically saturated soil dispute determination:

1. Washington County septic system permit issued November 24, 1980.
2. A compliance inspection report submitted to the Department by Shelley Schlomka on September 16, 2019.
3. A compliance inspection report submitted to the Department by Dave R Brown on January 29, 2020

Based on the information provided, the Department has determined the septic system to be compliant as found by Shelley Schlomka's September 2019 compliance inspection report. I have attached the original certification of compliance the Department issued September 17, 2019. If you have any questions please contact me at 651-430-6741 or [tyler.dale@co.washington.mn.us](mailto:tyler.dale@co.washington.mn.us).

Sincerely,

A handwritten signature in black ink that reads "Tyler Dale".

**REGARDING A RECENT SEPTIC SYSTEM COMPLIANCE INSPECTION**

The Washington County Department of Public Health and Environment (Department) administers Subsurface Sewage Treatment System (SSTS) regulations in Washington County. On 09/16/2019 the Department received a Certificate of Compliance from D. Schlomka Inc. for an SSTS located at 6786 St Croix Trl S, Town Of Denmark which was inspected on 09/09/2019.

This Certificate of Compliance establishes that the SSTS meets the minimum standards in local ordinance for an existing system. This determination is valid for a period of three years from the date of the inspection unless otherwise modified by the regulatory authority.

Please contact Tyler Dale, Environmental Specialist at 651-430-6741 or [Tyler.Dale@co.washington.mn.us](mailto:Tyler.Dale@co.washington.mn.us) with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Bruns".

Gary Bruns
