Septic System Compliance

Dear Shaun,

The Washington County Department of Public Health and Environment (Department) has received two valid compliance inspection reports with different conclusions. The homeowner's representative Shaun Hainey requested the County offer an opinion regarding the compliance of the system. The periodically saturated soil dispute process laid out in Washington County Ordinance #206 section 8.13 was followed.

The Department used the following information in making a periodically saturated soil dispute determination:

1. Washington County septic system permit issued October 9, 2000.
2. A compliance inspection report submitted to the Department by Midwest Sewer Services on November 25, 2019.
3. A compliance inspection report submitted to the Department by Dave R Brown on July 23, 2020.

Based on the information provided, the Department has determined the septic system to be compliant as found by Midwest Sewer Services compliance inspection report. If you have any questions please contact me at 651-430-6741 or tyler.dale@co.washington.mn.us.

Sincerely,

Tyler Dale
Senior Environmental Specialist
