

520 Lafayette Road North St. Paul, MN 55155-4194

Compliance inspection report form **Existing Subsurface Sewage Treatment System (SSTS)**

Doc Type: Compliance and Enforcement

Instructions: Inspection results based on Minnesota Pollution Control Agency (MPCA) requirements and attached supporting documentation – additional local requirements may also apply. Further information can be found here: https://www.pca.state.mn.us/sites/default/files/wg-wwists4-31a.pdf.

Inspector must submit completed form to Local Governmental Unit (LGU) and system owner within 15 days of final determination of compliance or noncompliance.

Property information	Local tracking number:
	Local regulatory authority: Wash County 651-430-6655
Property address: 16030 6th St N Lakeland, MN 55043	
Owner/representative: Ashley R Hawke	Owner's phone: 715-977-1019
Brief system description: 1250 gallon septic tank with a gravity	rock trench drainfield
System status	
System status on date (mm/dd/yyyy): _5/5/2021	
☐ Compliant – Certificate of compliance*	☐ Noncompliant – Notice of noncompliance
(Valid for 3 years from report date unless evidence of an imminent threat to public health or safety requiring removal and abatement under section 145A.04, subdivision 8 is discovered or a shorter time frame exists in Local Ordinance.) *Note: Compliance indicates conformance with Minn R. 7080.1500 as of system status date above and does not guarantee future performance.	upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance or under section 145A.04 subdivision 8.
 ☐ Other Compliance Conditions (Compliance comporting to Minn. R. 7080 ☐ System not abandoned according to Minn. R. 7080 ☐ Soil separation (Compliance component #5) – Failit 	1) – Imminent threat to public health and safety g to protect groundwater nent #3) – Imminent threat to public health and safety nent #3) – Failing to protect groundwater 0.2500 (Compliance component #3) – Failing to protect groundwater
Certification I hereby certify that all the necessary information has been gath determination of future system performance has been nor can be	e made due to unknown conditions during system construction, possible
abuse of the system, inadequate maintenance, or future water under the system of the system, inadequate maintenance, or future water under the system of the system. I certify the above statements to be	usage. The true and correct, to the best of my knowledge, and that this information
can be used for the purpose of processing this form.

3. Other compliance conditions – Compliance component #3 of 5	
3a. Maintenance hole covers appear to be structurally unsound (damaged, cracked, etc.), or unsecured ☐ Yes* ☒ No ☐ Unknown	
3b. Other issues (electrical hazards, etc.) to immediately and adversely impact public health or safety? *Yes to 3a or 3b - System is an imminent threat to public health and safety.	Yes* ⊠ No ☐ Unknown
3c. System is non-protective of ground water for other conditions as determined by inspector?	Yes* ☑ No
3d. System not abandoned in accordance with Minn. R. 7080.2500? □	Yes* ☑ No
*Yes to 3c or 3d - System is failing to protect groundwater.	
Describe verification methods and results:	
Attached supporting documentation: Not applicable	
4. Operating permit and nitrogen BMP* – Compliance component #4 of 5	☑ Not applicable
Is the system operated under an Operating Permit? ☐ Yes ☒ No If "yes	s", A below is required
Is the system required to employ a Nitrogen BMP specified in the system design? ☐ Yes ☒ No If "yes	s", B below is required
BMP = Best Management Practice(s) specified in the system design	
If the answer to both questions is "no", this section does not need to be completed.	
Compliance criteria:	
a. Have the operating permit requirements been met?	
b. Is the required nitrogen BMP in place and properly functioning? ☐ Yes ☐ No	
Any "no" answer indicates noncompliance.

5. Soil separation – Compliance component #5 of 5 Date of installation 1978 Unknown (mm/dd/yyyy) Shoreland/Wellhead protection/Food ☐ Yes ☒ No Attached supporting documentation: beverage lodging? Soil observation logs completed for the report (Attach) Compliance criteria (select one): ☐ Two previous verifications of required vertical separation (Attach) 5a. For systems built prior to April 1, 1996, ✓ Yes □ No* and not located in Shoreland or Wellhead ☐ Not applicable (No soil treatment area) Protection Area or not serving a food, beverage or lodging establishment: Drainfield has at least a two-foot vertical separation distance from periodically saturated soil or bedrock. 5b. Non-performance systems built April 1. ☐ Yes ☐ No* Indicate depths or elevations 1996, or later or for non-performance A. Bottom of distribution media 4 systems located in Shoreland or Wellhead Protection Areas or serving a food, B. Periodically saturated soil/bedrock 6.5 beverage, or lodging establishment: C. System separation 2.5 Drainfield has a three-foot vertical separation distance from periodically 2 D. Required compliance separation* saturated soil or bedrock.* *May be reduced up to 15 percent if allowed by Local Ordinance. 5c. "Experimental", "Other", or "Performance" Yes No* systems built under pre-2008 Rules; Type IV or V systems built under 2008 Rules 7080. 2350 or 7080.2400 (Advanced Inspector License required) Drainfield meets the designed vertical separation distance from periodically saturated soil or bedrock. *Any "no" answer above indicates the system is failing to protect groundwater. Describe verification methods and results: Upgrade requirements: (Minn. Stat. § 115.55) An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the system is failing to protect ground water, the system must be upgraded, replaced, or its use discontinued within the time required by local ordinance. If an existing system is not failing as defined in law, and has at least two feet of design soil separation, then the system need not be upgraded, repaired, replaced, or its use discontinued, notwithstanding any local ordinance that is more strict. This provision does not apply to systems in shoreland areas, Wellhead Protection Areas, or those used in connection with food, beverage, and lodging establishments as defined in law.
