

520 Lafayette Road North St. Paul, MN 55155-4194

Compliance inspection report form

Existing Subsurface Sewage Treatment System (SSTS)

Doc Type: Compliance and Enforcement

Instructions: Inspector must submit completed form to Local Governmental Unit (LGU) and system owner within 15 days of final determination of compliance or noncompliance. Instructions for filling out this form are located on the Minnesota Pollution Control Agency (MPCA) website at https://www.pca.state.mn.us/sites/default/files/wq-wwists4-31a.pdf.

Property information	Local tracking number:
Parcel ID# or Sec/Twp/Range: 27.029.20.23.0004	Reason for Inspection property sale
Local regulatory authority info: Washington County	, and the second
Property address: 15210 15th St N Stillwater, MN 55082	
Owner/representative: Lisa Boe, Keller Williams Realty	Owner's phone: 651-769-5009
Brief system description: 1250 gallon precast septic tank and a System status	gravelless drainfield.
System status on date (mm/dd/yyyy):11/22/2021	
⊠ Compliant – Certificate of compliance*	☐ Noncompliant – Notice of noncompliance
(Valid for 3 years from report date unless evidence of an imminent threat to public health or safety requiring removal and	Systems failing to protect ground water must be upgraded, replaced, or use discontinued within the time required by local ordinance.
abatement under section 145A.04, subdivision 8 is discovered or a shorter time frame exists in Local Ordinance.) *Note: Compliance indicates conformance with Minn. R. 7080.1500 as of system status date above and does not guarantee future performance.	An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance or under section 145A.04 subdivision 8.
Reason(s) for noncompliance (check all applicab	ole)
Soil separation (Compliance component #5) – Failin	to protect groundwater ent #3) – Imminent threat to public health and safety ent #3) – Failing to protect groundwater 2500 (Compliance component #3) – Failing to protect groundwater g to protect groundwater enpliance component #4) – Noncompliant - local ordinance applies
Certification	
I hereby certify that all the necessary information has been gathered future system performance has been nor can be made due to unknowinadequate maintenance, or future water usage.	to determine the compliance status of this system. No determination of work conditions during system construction, possible abuse of the system,
By typing my name below, I certify the above statements to be true used for the purpose of processing this form.	and correct, to the best of my knowledge, and that this information can be

usiness Name: All State Septic Services LLC		Date: 11/22/2021
Soil separation – Compliance con	nponent #5 of	5
Date of installation 9/16/1992 (mm/dd/yyyy)	Unknown	
Shoreland/Wellhead protection/Food beverage lodging? Compliance criteria (select one):	☐ Yes ⊠ No	Attached supporting documentation: Soil observation logs completed for the report
5a. For systems built prior to April 1, 1996, and not located in Shoreland or Wellhead Protection Area or not serving a food, beverage or lodging establishment:	⊠ Yes □ No*	☐ Two previous verifications of required vertical separati☐ Not applicable (No soil treatment area)☐
Drainfield has at least a two-foot vertical separation distance from periodically saturated soil or bedrock.		
5b. Non-performance systems built April 1, 1996, or later or for non- performance systems located in Shoreland or Wellhead Protection Areas or serving a food, beverage, or lodging establishment: Drainfield has a three-foot vertical separation distance from periodically saturated soil or bedrock.*	Yes No*	A. Bottom of distribution media 2 B. Periodically saturated soil/bedrock 4.5 C. System separation 2.5 D. Required compliance separation* 2 *May be reduced up to 15 percent if allowed by Local Ordinance.
5c. "Experimental", "Other", or "Performance" systems built under pre-2008 Rules; Type IV or V systems built under 2008 Rules 7080. 2350 or 7080.2400 (Intermediate Inspector License required ≤ 2,500 gallons per day; Advanced Inspector License required > 2,500 gallons per day)	☐ Yes ☐ No*	
Drainfield meets the designed vertical separation distance from periodically saturated soil or bedrock.		

Upgrade requirements: (Minn. Stat. § 115.55) An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the system is failing to protect ground water, the system must be upgraded, replaced, or its use discontinued within the time required by local ordinance. If an existing system is not failing as defined in law, and has at least two feet of design soil separation, then the system need not be upgraded, replaced, or its use discontinued, notwithstanding any local ordinance that is more strict. This provision does not apply to systems in shoreland areas, Wellhead Protection Areas, or those used in connection with food, beverage, and lodging establishments as defined in law.
