Town of Stillwater, MN 55082

### Extension for Repair, Replacement or Discontinued Use of Septic System

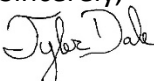

The Department of Public Health and Environment has received your request for an extension to repair, replace, or discontinue the use of the onsite septic system (SSTS) located at 9685 Stonebridge Trl N, Town of Stillwater.

The Department has used the following information in making a determination on your request:

1. Per the September 6, 2022, email sent by Glenn Johnson the property and home have been and are currently unoccupied since the time of the compliance inspection. No wastewater is being generated on the property.
2. A replacement septic system design has been obtained from a licensed septic system designer.
3. Glenn Johnson states that the installers contacted are unable to install the system this year and estimate the system will be installed spring 2023.

Given the above information and the authority granted by Washington County Ordinance #206, the Department of Public Health and Environment agrees with your request to extend the time frame to replace, repair or discontinue use of the onsite SSTS until February 3, 2022.

If you have any questions or comments, please contact Tyler Dale at 651-430-6741 or [Tyler.Dale@co.washington.mn.us](mailto:Tyler.Dale@co.washington.mn.us).

Sincerely,  

Senior Environmental Specialist
