Hello Tyler,

It was a pleasure speaking with you today.

As we discussed, the existing septic tank at 9685 Stonebridge Trail N has been pumped dry twice since May of 2022. Also, the property has not been occupied since May of 2022. In that, water and septic systems have not been in use since May of 2022.

As you are aware, a permit has been issued for a new septic system and Rick Fuhr is schedule to install it as soon as weather permits. Please respond with an appropriate notice/letter indicating that the existing septic system **does not** pose an immediate public heath threat.

Thank you for your assistance in this.

Glenn Johnson
