

Compliance inspection report form Existing Subsurface Sewage Treatment System (SSTS)

520 Lafayette Road North St. Paul, MN 55155-4194

Doc Type: Compliance and Enforcement

Instructions: Inspector must submit completed form to Local Governmental Unit (LGU) and system owner within 15 days of final determination of compliance or noncompliance. Instructions for filling out this form are located on the Minnesota Pollution Control Agency (MPCA) website at https://www.pca.state.mn.us/sites/default/files/wq-wwists4-31a.pdf.

Property information	Local tracking number:
Parcel ID# or Sec/Twp/Range: 32.031.20.33.0004	Reason for Inspection property sale
ocal regulatory authority info: Washington County	
roperty address: 11520 120 th St N May Twp, MN 55082	
wner/representative: Mary Holm	Owner's phone: 612-791-4602
rief system description: A precast septic tank and a gravity roo	ck trench drainfield.
System status	
System status on date (mm/dd/yyyy):8/17/2022	
☐ Compliant – Certificate of compliance*	Noncompliant − Notice of noncompliance
Valid for 3 years from report date unless evidence of an mminent threat to public health or safety requiring removal and	Systems failing to protect ground water must be upgraded, replaced, or use discontinued within the time required by local ordinance.
abatement under section 145A.04, subdivision 8 is discovered or a shorter time frame exists in Local Ordinance.)	An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt
*Note: Compliance indicates conformance with Minn. R. 7080.1500 as of system status date above and does not guarantee future performance.	of this notice or within a shorter period if required by local ordinance or under section 145A.04 subdivision 8.
Reason(s) for noncompliance (check all applica	ble)
☐ Impact on public health (Compliance component #*	1) – Imminent threat to public health and safety
☐ Tank integrity (Compliance component #2) – Failing	g to protect groundwater
☐ Other Compliance Conditions (Compliance compor	nent #3) – Imminent threat to public health and safety
Other Compliance Conditions (Compliance compor	nent #3) – Failing to protect groundwater
System not abandoned according to Minn. R. 7080	0.2500 (Compliance component #3) – Failing to protect groundwater
	ina to protect groundwater
Operating permit/monitoring plan requirements (Co	ompliance component #4) – Noncompliant - local ordinance applies
Comments or recommendations

Upgrade requirements: (Minn. Stat. § 115.55) An imminent threat to public health and safety (ITPHS) must be upgraded, replaced. or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the system is failing to protect ground water, the system must be upgraded, replaced, or its use discontinued within the time required by local ordinance. If an existing system is not failing as defined in law, and has at least two feet of design soil separation, then the system need not be upgraded, repaired, replaced, or its use discontinued, notwithstanding any local ordinance that is more strict. This provision does not apply to systems in shoreland areas, Wellhead Protection Areas, or those used in connection with food, beverage, and lodging establishments as defined in law.
