The Washington County Public Health and Environment Department (Department) administers Subsurface Sewage Treatment System (SSTS) regulations in Washington County. On February 1, 2023, the Department received a Notice of Noncompliance from Midwest Sewer Services for a SSTS located at 14371 Valley Creek Trail South, City of Afton.

The report indicates that the system does not have the required soil separation and therefore, is failing to protect groundwater. The report did not find the septic system to pose an imminent threat to public health or the environment.
