Compliance inspection report form

Existing Subsurface Sewage Treatment System (SSTS)

Doc Type: Compliance and Enforcement

Available in alternative formats

Page 1 of 4

Instructions: inspector must actual completed form to Local Governmental Unif (LGU) and system owner within rmination of compliance as recenscriptionse. Instructions for filling out this form are located on the Minnesota Pollution Control Agency (MPCA) website at https://www.pca.state.mn.us/sites/default/files/wq-wwists4-31a.pdf. **Property information** Local tracking number: Parcel ID# or Sec/Twp/Range: 11.028.20.13.0081 Reason for Inspection property sale Local regulatory authority info: Washington County Property address: 1281 Quinlan Ave S Lake St Croix Beach, MN 55043 Owner/representative: Lyle Merriman Owner's phone: 651-436-7511 Brief system description: A septic tank and a gravity, rock trench drainfield. System status System status on date (mm/dd/yyyy): __10/5/2023 ☐ Compliant – Certificate of compliance* ■ Noncompliant – Notice of noncompliance (Valid for 3 years from report date unless evidence of an Systems failing to protect ground water must be upgraded, replaced, or imminent threat to public health or safety requiring removal and use discontinued within the time required by local ordinance. abatement under section 145A.04, subdivision 8 is discovered or An imminent threat to public health and safety (ITPHS) must be a shorter time frame exists in Local Ordinance.) upgraded, replaced, or its use discontinued within ten months of receipt *Note: Compliance indicates conformance with Minn. of this notice or within a shorter period if required by local ordinance or R. 7080.1500 as of system status date above and does not under section 145A.04 subdivision 8. guarantee future performance. Reason(s) for noncompliance (check all applicable) ☐ Impact on public health (Compliance component #1) – Imminent threat to public health and safety ☐ Tank integrity (Compliance component #2) – Failing to protect groundwater Other Compliance Conditions (Compliance component #3) – Imminent threat to public health and safety Other Compliance Conditions (Compliance component #3) - Failing to protect groundwater System not abandoned according to Minn. R. 7080.2500 (Compliance component #3) - Failing to protect groundwater Soil separation (Compliance component #5) – Failing to protect groundwater Operating permit/monitoring plan requirements (Compliance component #4) - Noncompliant - local ordinance applies Comments or recommendations Reviewed design, permit, soil, inspection & pumping records on file at Washington County. Certification I hereby certify that all the necessary information has been gathered to determine the compliance status of this system. No determination of future system performance has been nor can be made due to unknown conditions during system construction, possible abuse of the system. inadequate maintenance, or future water usage. By typing my name below, I certify the above statements to be true and correct, to the best of my knowledge, and that this information can be used for the purpose of processing this form. Certification number: 323 Business name: All State Septic Services LLC License number: 1568 Inspector signature: Tom Trooien (This document has been electronically signed) Phone: 612-594-4496 Necessary or locally required supporting documentation (must be numbered). separation distance from periodically			D. Required compliance separation*	3.0
saturated soil or bedrock.*			*May be reduced up to 15 percent if allo Ordinance.	owed by Local
5c. "Experimental", "Other", or "Performance" systems built under pre-2008 Rules; Type IV or V systems built under 2008 Rules 7080. 2350 or 7080.2400 (Intermediate Inspector License required ≤ 2.500 gallons per day; Advanced Inspector License required > 2,500 gallons per day)	☐ Yes	□ No		
Drainfield meets the designed vertical separation distance from periodically saturated soil or bedrock.				

Describe verification methods and results:

Upgrade requirements: (Minn. Stat. § 115.55) An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the system is falling to protect ground water, the system must be upgraded, replaced, or its use discontinued within the time required by local ordinance. If an existing system is not failing as defined in law, and has at least two feet of design soil separation, then the system need not be upgraded, repaired, replaced, or its use discontinued, notwithstanding any local ordinance that is more strict. This provision does not apply to systems in shoreland areas. Wellhead Protection Areas, or those used in connection with food. beverage, and lodging establishments as defined in law.
