Oops! I had thought I had sent this on Monday. Let me know that you received. Thanks again for your help.

Greetings Chris,

Thanks for the quick response this morning. My mother Roberta currently has her home and 10 acre parcel for sale and is considering offers from both developers intending to tear down her current dwelling and replace with 3 – 3 acre lots as well as offers from others who may retain the current home in which case a new septic system would be installed to replace the non-compliant one. I would expect that we would have a firm plan in place within the next couple months. Feel free to contact me if you have any further questions or concerns and I can respond on my mother's behalf.

Regards,

Jim Bertrand
