Subject: 15150 Square Lake Trail N, compliance inspections
Attachments: 15150 square lake_20240719_NON.pdf; 20240719_15150 square lake_COC.pdf

Hi Brian,

I found your email in the compliance inspection documentation submitted by Kloepner Services & Design, LLC. Attached are orders issued on 7/19/2024 by the department in regards to the four (4) noncompliant systems identified at 15150 Square Lake Trail N. One of the five systems was found onsite to be compliant. These orders are issued to the owner of the property via an automatic process, which as you recently purchased the property means it was not sent to you/your address. Please see attached.

Protection of public health and groundwater is essential infrastructure for a licensed campground and licensed food establishment. Noncompliance with these orders regarding the Subsurface Sewage Treatment Systems (SSTS) may impact the ability to operate the campground in the future. Please let me know if you have any questions or concerns with the orders to replace and/or the timeframe identified in local ordinance.

Thank you,

Sarah
