Name: John + Judy Melbo

Address: 11660 Lockridge Road City: Hastings

Gallons Billed: Tank #1 1000 Tank #2          Pump Tank  Total 1000  
(Pump tank is billed @ a minimum of 500 gallons)

Are all covers securely replaced? yes

Access Used for Pumping: Manhole / Standpipe (Explanation & Signature):

I John Melbo as the property owner/manager, have authorized the septic tanks to be pumped through means other than through manholes, which I understand is code and the proper way to clean the tanks. Signature: [Signature]

Comments/Problems: call back for pricing of putting an alarm system in.

Filter: Yes  No  Type of System: inclined trench

St. Paul          Chanhassen          Blue Lake          LeSueur          Watertown          Cologne          Big Lake LA

Waste Type: Commercial Waste Domestic Waste Holding Tank

Next Recommended Pumping Date: every 3 years

*Septic tanks should be pumped every 1 to 3 years. Many different variables determine how often a tank needs pumping:*

- Type and age of system
- Number of people in the house
- Garbage disposal
- Tank history
