MARISA PAULAT
192 TALAHI DR
MAHTOMEDI MN 55115

You are receiving this letter in response to a recent sub-surface sewage treatment (SSTS) compliance inspection completed on the above property.

The City of Mahtomedi required that septic systems within the city have a compliance inspection completed by the end of 2016. On 12/10/2016 the Department received a Notice of Non-Compliance for the SSTS serving 192 TALAHI DR.

Due to the findings of this inspection, County ordinance #196 requires that the system must be repaired or replaced within six months. Financial assistance is available through Washington County in the form of low-interest loans and grants from low-income residents. Please visit www.washington.mn.us/septic for more information on financial assistance and the processes of repairing or replacing an SSTS.

The Department recognizes that repairing or replacing an SSTS can seem like a daunting task and we have staff available to answer technical questions about this inspection or the SSTS replacement process. Please contact Alex Pepin at (651) 275-7283 or email at Alex.Pepin@co.washington.mn.us if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary Bruns".

Gary Bruns
Environmental Program Supervisor
