

520 Lafayette Road North St. Paul, MN 55155-4194

Compliance Inspection Form

Existing Subsurface Sewage Treatment Systems (SSTS)

Doc Type: Compliance and Enforcement

Inspection results based on Minnesota Pollution Control Agency (MPCA)	For local tracking purposes:								
requirements and attached forms – additional local requirements may also apply.	9								
Submit completed form to Local Unit of Government (LUG) and system owner within 15 days									
System Status									
System status on date (mm/dd/yyyy):6/10/2017									
 ✓ Compliant – Certificate of Compliance (Valid for 3 years from report date, unless shorter time frame outlined in Local Ordinance.) ✓ Noncompliant – Notice of Noncompliance (See Upgrade Requirements on page 3.) 									
Reason(s) for noncompliance (check all applicable)									
☐ Impact on Public Health (Compliance Component #1) – Imminent threat to public health and safety									
☐ Other Compliance Conditions (Compliance Component #3) – Imminent threat to public health and safety									
☐ Tank Integrity (Compliance Component #2) – Failing to protect groundwater									
☐ Other Compliance Conditions (Compliance Component #3) – Failing to protect groundwater									
☐ Soil Separation (Compliance Component #4) – Failing to protect grounds									
Operating permit/monitoring plan requirements (Compliance Component	#5) – Noncompliant

4. Soil Separation - Compliance co	mponent #4 of 5							
Date of installation: 9/30/1998	Unknown	Verific	cation method(s):					
(mm/dd/yyyy) Shoreland/Wellhead protection/Food beverage lodging?	⊠ Yes □ No	observ	Soil observation does not expire. Previous soil observations by two independent parties are sufficient, unless site conditions have been altered or local requirements differ.					
Compliance criteria:		require						
For systems built prior to April 1, 1996, and	☐ Yes ☐ No	Cor	nducted soil observation(s) (A	ttach boring logs)				
not located in Shoreland or Wellhead Protection Area or not serving a food,		☐ Two	previous verifications (Attac	h boring logs)				
beverage or lodging establishment:		☐ Not	applicable (Holding tank(s), no	drainfield)				
Drainfield has at least a two-foot vertical		☐ Una	☐ Unable to verify (See Comments/Explanation)					
separation distance from periodically saturated soil or bedrock.		☐ Oth	☐ Other (See Comments/Explanation)					
Non-performance systems built April 1,	⊠ Yes □ No	Comm	ents/Explanation:					
1996, or later or for non-performance systems located in Shoreland or Wellhead		B-1	0-13 topsoil	10 YR 3/3				
Protection Areas or serving a food,			8-24 med sand10 YR					
beverage, or lodging establishment:			31-80 sand with rocks	10 YR 6/4				
Drainfield has a three-foot vertical separation distance from periodically saturated soil or bedrock.*								
"Experimental", "Other", or "Performance"	☐ Yes ☐ No	Indica	Indicate depths or elevations					
systems built under pre-2008 Rules; Type IV or V systems built under 2008 Rules (7080. 2350 or 7080.2400 (Advanced Inspector		A. Bott	om of distribution media	36-42				
License required)		B. Per	iodically saturated soil/bedrock	-				
Drainfield meets the designed vertical		C. Sys	tem separation	38				
separation distance from periodically saturated soil or bedrock.		D. Red	uired compliance separation*	36				
Any "no" answer above indicates to failing to protect groundwater.	he system is		*May be reduced up to 15 percent if allowed by Local Ordinance.					
5. Operating Permit and Nitrogen	BMP* – Complia	ince com	ponent #5 of 5	Not applicable				
Is the system operated under an Operating	Permit?	s 🛭 No	If "yes", A below is requ	ired				
Is the system required to employ a Nitrogen BMP?								
BMP = Best Management Practice(s) specified in the system design								
If the answer to both questions is "no", this section does not need to be completed.								
Compliance criteria								
a. Operating Permit number: n/a			☐ Yes ☐ No					
Have the Operating Permit requirement	ents been met?		LI TES LINO					

b. Is the required nitrogen BMP in place and properly functioning?

Any "no" answer indicates Noncompliance.

Upgrade Requirements (Minn. Stat. § 115.55) An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the system is failing to protect ground water, the system must be upgraded, replaced, or its use discontinued within the time required by local ordinance. If an existing system is not failing as defined in law, and has at least two feet of design soil separation, then the system need not be upgraded, replaced, or its use discontinued, notwithstanding any local ordinance that is more strict. This provision does not apply to systems in shoreland areas, Wellhead Protection Areas, or those used in connection with food, beverage, and lodging establishments as defined in law.

☐ Yes ☐ No
