

St. Paul, MN 55155-4194

## **Compliance Inspection Form**

**Existing Subsurface Sewage Treatment Systems (SSTS)** 

Doc Type: Compliance and Enforcement

For local tracking purposes: Inspection results based on Minnesota Pollution Control Agency (MPCA) requirements and attached forms - additional local requirements may also apply. Submit completed form to Local Unit of Government (LUG) and system owner within 15 days System Status System status on date (mm/dd/yyyy): 12/23/2015 Noncompliant - Notice of Noncompliance (See Upgrade Requirements on page 3.) (Valid for 3 years from report date, unless shorter time frame outlined in Local Ordinance.) Reason(s) for noncompliance (check all applicable) ☐ Impact on Public Health (Compliance Component #1) – Imminent threat to public health and safety Other Compliance Conditions (Compliance Component #3) - Imminent threat to public health and safety ☐ Tank Integrity (Compliance Component #2) – Failing to protect groundwater ☐ Other Compliance Conditions (Compliance Component #3) – Failing to protect groundwater ☐ Soil Separation (Compliance Component #4) – Failing to protect groundwater Operating permit/monitoring plan requirements (Compliance Component #5) - Noncompliant **Property Information** Parcel ID# or Sec/Twp/Range: Reason for inspection: Sale Property address: 8169 80th St N Stillwater, MN 55082 Owner's phone: Property owner: Wally Billy or Representative phone: Owner's representative: Regulatory authority phone: 651-430-6655 Local regulatory authority: Washington County Two septic tanks and gravity drainfield, (4) lines Brief system description: Comments or recommendations: Checked inspection caps on drainfield - no standing water in any of the drainfield lines. Certification I hereby certify that all the necessary information has been gathered to determine the compliance status of this system. No determination of future system performance has been nor can be made due to unknown conditions during system construction, possible abuse of the system, inadequate maintenance, or future water usage. Certification number: 9594 Inspector name: Benjamin Zierke License number: Business name: Zierke Soil Testing Phone number: \_651-462-2294 Inspector signature: Necessary or Locally Required Attachments Forms per local ordinance System/As-built drawing Soil boring logs Other information (list):

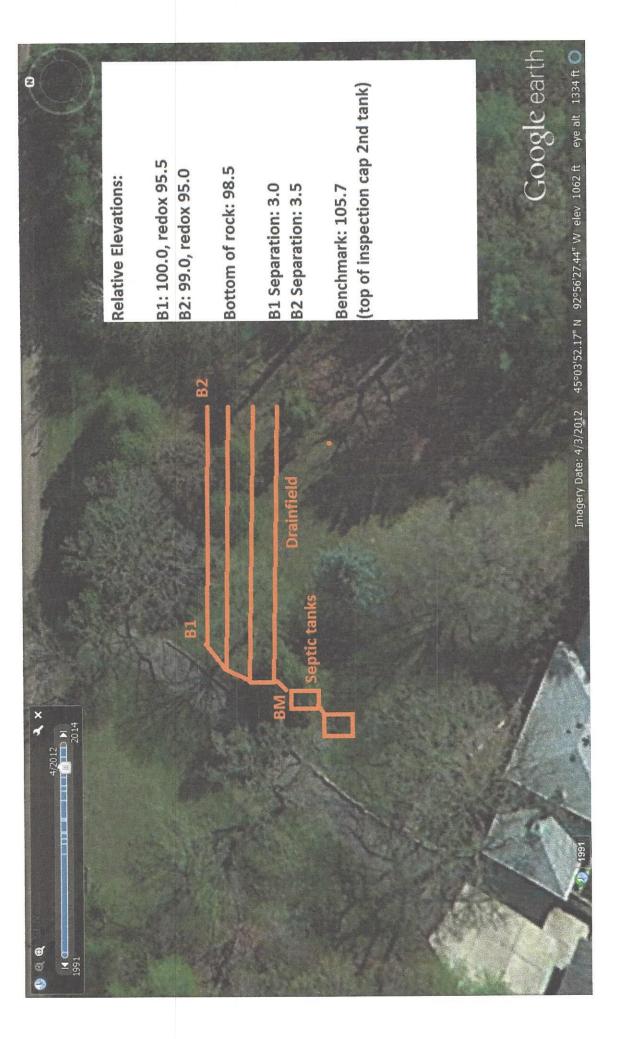

1.	. Impact on Public Health - Compliance component #1 of 5								
	Con	npliance criteria:		Verification method(s):					
		em discharges sewage to the nd surface.	☐ Yes ⊠ No	<ul><li>☑ Searched for surface outlet</li><li>☑ Searched for seeping in yard/backup in home</li></ul>					
		em discharges sewage to drain or surface waters.	☐ Yes ⊠ No	<ul> <li>☐ Excessive ponding in soil system/D-boxes</li> <li>☐ Homeowner testimony (See Comments/Explanation)</li> </ul>					
		em causes sewage backup into lling or establishment.	☐ Yes   No	☐ "Black soil" above soil dispersal system ☐ System requires "emergency" pumping					
	sys	Any "yes" answer above indicates the system is an imminent threat to public health and safety.		☐ Performed dye test ☐ Unable to verify (See Comments/Explanation) ☐ Other methods not listed (See Comments/Explanation)					
125	Con	nments/Explanation:		The state of the s					
	Hom	neowner did not report any issues v	with the system.						
2.	Tar	n <b>k Integrity</b> – Compliance o	component #2 of 5						
	Cor	mpliance criteria:		Verification method(s):					
		tem consists of a seepage pit, spool, drywell, or leaching pit.	☐ Yes ⊠ No	<ul><li>☐ Probed tank(s) bottom</li><li>☐ Examined construction records</li></ul>					
		page pits meeting 7080.2550 may be pliant if allowed in local ordinance.		<ul><li>Examined Tank Integrity Form (Attach)</li><li>Observed liquid level below operating depth</li></ul>					
		vage tank(s) leak below their igned operating depth.	☐ Yes ⊠ No	☐ Examined empty (pumped) tanks(s) ☐ Probed outside tank(s) for "black soil"					
	If ye	es, which sewage tank(s) leaks:		Unable to verify (See Comments/Explanation)					
		y "yes" answer above indi stem is failing to protect gı		☐ Other methods not listed (See Comments/Explanation)					
	Cor	nments/Explanation:							
	Tanks pumped 12/17/2015 by Tom's Sewer with no issues.								
3.	Otl	ner Compliance Condition	ns - Compliance com	ponent #3 of 5					
	a.								
	b.	The state of the s							
Explain:									
	C.	<ul> <li>c. System is non-protective of ground water for other conditions as determined by inspector . ☐ Yes* ☐ No</li> <li>*System is failing to protect groundwater.</li> <li>Explain:</li> </ul>							

4. Soil Separation – Compliance component #4 of 5								
Date of installation:	☑ Unknown	Verification method(s):						
(mm/dd/yyyy) Shoreland/Wellhead protection/Food beverage lodging?	☐ Yes ⊠ No	Soil observation does not expire. Pro observations by two independent pa unless site conditions have been alto	rties are sufficient,					
Compliance criteria:		requirements differ.						
For systems built prior to April 1, 1996, and	☐ Yes ☐ No	Conducted soil observation(s) (Attach boring logs)						
not located in Shoreland or Wellhead Protection Area or not serving a food,		TOTAL SI SE SECONDA SE	o previous verifications (Attach boring logs)					
beverage or lodging establishment:		Not applicable (Holding tank(s), no drainfield)						
Drainfield has at least a two-foot vertical		Unable to verify (See Comments/E	0.00					
separation distance from periodically saturated soil or bedrock.		Other (See Comments/Explanation)						
Non-performance systems built April 1, 1996, or later or for non-performance systems located in Shoreland or Wellhead Protection Areas or serving a food, beverage, or lodging establishment:	⊠ Yes □ No	Comments/Explanation:						
Drainfield has a three-foot vertical separation distance from periodically saturated soil or bedrock.*								
"Experimental", "Other", or "Performance"	☐ Yes ☐ No	Indicate depths or elevations						
systems built under pre-2008 Rules; Type IV or V systems built under 2008 Rules (7080.		A. Bottom of distribution media	98.5					
2350 or 7080.2400 (Advanced Inspector License required)		B. Periodically saturated soil/bedrock	95.5					
Drainfield meets the designed vertical		C. System separation	3.0					
separation distance from periodically saturated soil or bedrock.		D. Required compliance separation*	3.0					
Any "no" answer above indicates the system is failing to protect groundwater.  *May be reduced up to 15 percent if allowed by Local Ordinance.								
<ol><li>Operating Permit and Nitroger</li></ol>	BMP* – Compliar	nce component #5 of 5	Not applicable					
Is the system operated under an Operating	Permit?	No If "yes", A below is requi	red					
Is the system required to employ a Nitrogen BMP?								
BMP = Best Management Practice(s) specified in the system design								
If the answer to both questions is "no", this section does not need to be completed.								
Compliance criteria								
Operating Permit number:		☐ Yes ☐ No						
Have the Operating Permit requirement	ents been met?							
b. Is the required nitrogen BMP in place		ng? Yes No						
Any "no" answer indicates Noncompliance.								
Upgrade Requirements (Minn. Stat. § 115.55) An imminent threat to public health and safety (ITPHS) must be upgraded, replaced, or its use discontinued within ten months of receipt of this notice or within a shorter period if required by local ordinance. If the system is failing to protect								

651-296-6300 • TTY 651-282-5332 or 800-657-3864 • Available in alternative formats www.pca.state.mn.us • 800-657-3864

Wellhead Protection Areas, or those used in connection with food, beverage, and lodging establishments as defined in law.

ground water, the system must be upgraded, replaced, or its use discontinued within the time required by local ordinance. If an existing system is not failing as defined in law, and has at least two feet of design soil separation, then the system need not be upgraded, repaired, replaced, or its use discontinued, notwithstanding any local ordinance that is more strict. This provision does not apply to systems in shoreland areas,

## **Logs of Soil Borings**

Location of Project:

8169 80th St N Stillwater, MN 55082

Borings Made by Ben Zierke

Date:

12/21/2015

Hand bucket auger used for borings; USDA - SCS Soil Classification used.
